
The results of ZS5 QSO Party

30 Logs were received for the ZS5 QSO Party held on Sunday 5 July 2026, which was a very pleasing response indeed. Unfortunately, only 1 Division 5 Club – ZS5HAM participated, hopefully we can encourage support from ZS5D, ZS5HAC, ZS5ZLB, ZS5PMB and ZS5NAK as these contacts are worth 5 points each. Two logs were received in the incorrect format (should be in MS Excel only) and had to be manually scored. Fifteen logs submitted had used the wrong multiplier to calculate the score in the summary sheet: Div 5 station use (x 1) for a Div 5 contact but (x 2) for working stations in other Divisions or Southern African countries. Stations from other Divisions use (x 2) for working a Div 5 station, but only (x 1) for working other Divisions or Southern African countries.
